## **Inspire 4100 Series Single Hung Window** **OPERATING INSTRUCTIONS for Factory-Installed** **Window Opening Control Devices (WOCs)** **ASTM F2090-21**

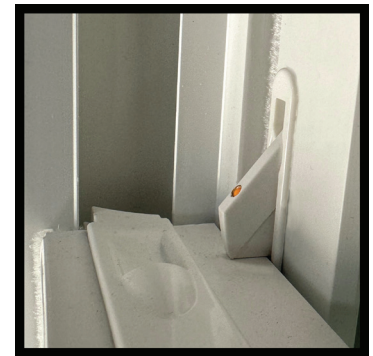

- 1) Unlock the window (Fig. 1).
- 2) Depress EACH ORANGE DOT TONGUE (Fig. 2) on the WOCs to lock in recessed position, then raise past the WOCs.
- 3) The WOCs will automatically reset when the sash is closed; raise sash to confirm it has reset. (Fig. 3).

**Figure 1**

**Figure 2**

**Figure 3**

- If the WOCs do not automatically reset, close & lock the window & call (800) 847-3736 to speak with Customer Service.
- Test each WOC's operation at least once a month for proper operation & ensure it remains securely attached to the window.
- These WOCs have been tested to meet the requirements of ASTM F2090-21.

### **WARNINGS:**

- Failure to follow usage and maintenance instructions carefully may allow for accidental falls.
- These WOCs are not a substitute for attentive supervision of all young children.
- Keep WOCs engaged unless needed for exit in an emergency.
- Windows with WOCs installed will block escape in Fire or Emergency unless locked/recessed.
- Maintain and check operation of WOCs monthly. Replace the WOCs if they do not operate correctly.
- Instruct household members age six and older how to operate WOCs in case of emergency.
- WOCs are designed to restrict the window opening to prevent accidental falls by children. When engaged, WOCs must limit the sash operation so that a 4.0" (102mm) rigid sphere cannot pass through a clear opening.
- Check the WOC upon receipt to make sure the device is securely attached to the window.
- Consult with local building and fire code departments before using WOCs, for specific applicable codes.
- WOCs shall be installed such that the release mechanism(s) is in conformance with local building and fire code requirements.

### **WARNING: Possible Fall Hazard**

- Young children may fall out of the window if the WOCs are not installed correctly.
- Install the device so that a rigid 4.0" (102mm) diameter sphere does not pass through any space at the lowest opening portion in the window opening after the WOCs are in place.
- Young children may fall out of the window if all instructions are not followed:
  - Use recommended materials and techniques.
  - Make sure that the WOCs are securely attached in accordance with the manufacturer's instructions.
  - Make sure that the window frame is in good condition.
